Dear Justin,

I want to take a moment to recognize a job well done. We recently completed the daunting task of migrating from Novell GroupWise to Microsoft Exchange 2013. Without CIS this project would not have gone as smoothly as it did and we finished within budget and ahead of time.

CIS engineers were extremely knowledgeable and very enjoyable to work with. Email is a mission critical application and throughout the course of the project we had no unplanned downtime and no real issues on the day we went live. The project was a great success from both my point of view and management's.

It is a real benefit to have a group that is so knowledgeable and responsive and we look forward to working with CIS on future projects.

Again, I want to thank CIS and the entire engineering team for excellent work.

Sincerely,

Stephan Czarnomski
