New York, New York 10018

Dear Alex,

I would like to take this opportunity to thank you and the entire CIS team for the fantastic work performed for the Ramaz School this past summer. We embarked on two large projects simultaneously: an on-premises Microsoft Exchange cluster migration to Office 365 and a complete upgrade of all of our computers in the lower, middle and upper schools from Windows XP to Windows 7. The design and scope of both projects was as extensive as it was complex. The operation and timing was multifaceted with substantial layers of technical considerations to weigh and execute. The CIS engineering team performed excellently and overcame significant technical obstacles to produce a world class end result. We are extremely pleased with the outcome.

The Rabbi Joseph H. Lookstein

Rabbi Tavi Koslowe
HEAD OF LOWER SCHOOL

The CIS Engineers were methodical in their approach and were always available us to assist or answer questions, even afterhours and on weekends. The Engineers demonstrated their outstanding subject matter expertise and always performed above and beyond when it mattered most. They always interacted with our internal IT staff in a professional and courteous manner and provided world-class knowledge sharing and knowledge transfer along the way. We look forward to continuing our relationship with CIS and thank you very much for your efforts. I would highly recommend CIS for technology and IT services and look forward to working with you on future opportunities.

Sincerely

Johanna B. Shlomovich
Chief Operating Officer
