January 5, 2017

Dear Mr. Anthony Fama,

On behalf of the Computer Science Department and the MS in Information Systems Division at Touro College, we extend our thanks for the time you took, November 28, 2016, to share your expertise with our students. We understand the value of providing our students with the opportunity to meet industry professionals and are aware that they gain much from this exposure. Our students expressed their appreciation for the knowledge you shared with them and very much enjoyed your presentation.

You provided them with a clearer picture of the auditing process, the role IT professionals play in the process and how auditing helps ensure that laws and regulations regarding security are being met. Your informative presentation helped to complement their coursework by providing the students with concrete examples of how DBAs and IT professionals are expected to assist in ensuring the security of an organization.

Thanks again for the time and effort.

Sincerely yours,

Dr. Issac Herskowitz  
Dean, Graduate school of Technology
